

Sustainability Policy

JA Rattigan & Son Ltd, in its vision to be recognised as a leading Vac Ex, Plant Hire and Utilities company, and is committed to protecting and enhancing local and global environments and ensuring that activities are carried out in a sustainable way.

Therefore, Rattigan Ltd will become a member of the Supply Chain Sustainability School.

To meet this aim, we will endeavour to:

- make ourselves aware of all new environmental legislation and regulations,
- comply with all environmental legislation and regulations,
- minimise energy use and its associated CO₂ emissions,
- maximise the use of renewable energy sources where possible,
- minimise the generation of waste where possible,
- maximise the re-use of materials and products where possible,
- maximise the use of recycled materials and products,
- maximise the recycling of materials and products,
- minimise raw material consumption,
- maximise the use of material from renewable sources,
- minimise polluting emissions to air, land and water,
- minimise the use of polluting forms of transport,
- assess the environmental impacts of all working practices and product manufacture,
- assess the whole life environmental performance of all purchases,
- maximise the use of local products and local workforce,
- minimise the use of water, where possible,
- ensure that design and construction is undertaken in a manner compatible with sustainable development.

To further the aims of this policy we will:

- Provide adequate environmental training for all staff.
- Develop a set of environmental targets and action plans.
- Review our environmental policy and its action plans periodically with a view to continuous improvement.
- Maintain certification our environmental management system in accordance with the principles of ISO 14001:2004.

All personnel will be familiar with the requirements of this Sustainability Policy.

This Sustainability Policy is reviewed annually in order to ensure its continuing suitability.

John Rattigan, CEO
